Education

Lokmanya Tilak College of Engineering, Navi Mumbai
B.Tech in Computer Engineering (Honors: Artificial Intelligence and Data Science)

August 24 - August 28

CGPA: 9.03 (1st Year), 9.05 (2nd Year)

Skills

Programming Languages: Python, Java, HTML, CSS, JavaScript, Flask, MySQL

Machine Learning Libraries: NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch, Matplotlib

Tools & Platforms: Jupyter Notebook, Git, Google Colab, Google Cloud

Communication Skills, Leadership, Problem Solving, Critical Thinking, Technical Skills

Projects

Vegetation Recovery Rate after Wildfire Prediction

Python, Pandas, Scikit-learn, Google Colab, Jupyter Notebook

- Built and trained a machine learning regression model to predict post-wildfire vegetation recovery using key environmental factors.
- Achieved an R^2 score of 0.85 through rigorous feature engineering and model evaluation.

Event Management System

Python, Flask, MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application to manage clients, events, venues, payments, and bill generation with complete CRUD functionality.
- Implemented dynamic search and inline editing features, streamlining data management for end users.

SpendDNA – Financial Transaction Analysis

Python, Pandas, NumPy, Matplotlib, Google Colab

- Performed exploratory data analysis on the Indian startup ecosystem to uncover funding, investor, industry, and city-wise trends.
- Generated actionable insights through systematic data cleaning, visualization, and statistical analysis.

RedFlag - Fraud Detection System

MySQL, SQL

- Designed and optimized SQL queries using joins, sub queries, and aggregate functions to detect suspicious financial transactions.
- Built an efficient fraud detection workflow capable of identifying potential fraud patterns through conditional logic.

Certifications

Green Skills using AI Technologies – Edunet Foundation

June 2025 – July 2025

- Completed certification on applying Artificial Intelligence to sustainability and green technology solutions, covering AI fundamentals and real-world environmental applications.

Cyber security Virtual Internship – NIIT Foundation

(Cisco Networking Academy)

March 2025 – April 2025

- Completed virtual internship covering cyber security fundamentals, network security concepts, and hands-on simulations using Cisco Packet Tracer.

AICTE | IBM SkillsBuild Gen AI & Cloud Computing Internship

BharatCares – IBM SkillsBuild & AICTE

June 2025 – July 2025

- Completed virtual internship focused on Generative AI, Cloud Computing, and AI-powered application development.
